

Full Service Supplement Manufacturing

OEM/ODM for Health Supplements, Sports Nutrition, and Nutraceuticals

————— Dedicated to manufacturing your brand's success —————

ABOUT US

| INTRODUCTION

Aoxin is a professional manufacturer of health products with 30 years of experience in the industry, producing raw materials, premixes, and finished packaged products.

We provide quality solutions for every step of supplement manufacturing, from raw ingredients to turnkey finished products.

Founded in 1996 in Yuhuan, Zhejiang, Aoxin is dedicated to the R&D, production, and trade of marine bio-extracts. As a leading manufacturer of many core supplement ingredients, including glucosamine, chitosan & derivatives, chondroitin sulfate, collagen, and more, Aoxin has a global industry network and deep experience. Our intimate knowledge of ingredient quality comes from our production expertise.

Since its inception, the company has integrated its supply chain into supplement ingredients, food/cosmetic raw materials, and medical devices. With professional teams, advanced facilities, patented technologies, and a complete industrial chain, Aoxin has a strong reputation worldwide.

| GLOBAL PRESENCE

Our subsidiaries span across China (Zhejiang, Jiangsu, Hangzhou, Wuhan, Shanghai, and more) and overseas, including the US, UK, and Japan, enabling global service coverage for the health industry.

PRODUCTION FACILITIES

Our production facilities are located in China and Japan, spanning 180,000 m². Our facilities are food-safety certified and hold FDA-registration, ISO 22000, and HACCP certifications. As we export to over 30 countries, we have worked with Halal and Kosher certified products and ingredients. Let us know your market's needs, and we will deliver reliable quality worldwide.

QUALITY CONTROL SYSTEMS

Our products are quality inspected at multiple production checkpoints, ensuring that every batch maintains the highest quality. Formulas are fully tested prior to production runs, including stability, heavy metals, and microbial content tests.

| SOFTGELS

Softgels can deliver both liquid and powder formulas and provide fast absorption, especially for ingredients that need delivery in a highly bioavailable form. They are easy to swallow and can be customized in shape, size, and color.

Softgels: Omega-3 fish oil, Antarctic krill oil, CoQ10, Vitamin E, Vitamin D, Vitamin K, Vegan Algae DHA Softgel

Production Capacity: 217 million per month

SIZE	 OVAL 7	 OVAL 10	 OBLONG 20
WEIGHT (DOSAGE CONTENT)	320 ~ 360 mg	450 ~ 550 mg	1000 mg
VOLUME (DOSAGE CONTENT)	6.2 ~ 7.5 minims	7.5 ~ 10 minims	16 ~ 20 minims

Note: The table represents average weight; exact measurements will depend on the specific formula and product.
We offer both gelatin and vegetarian softgels.

Inner Packaging

INNER PACKAGE	CAPSULE COUNT	SIZE / SPECIFICATIONS	RECOMMENDED MATERIALS
 BLISTER PACKET	10 or 12	Customizable	PVC thermoformed plastic & backing foil (customizable)
 INDIVIDUALLY SEALED BAGS	0 ~ 20 capsules	Minimum: 80 × 100 mm Maximum: 160 × 200 mm	PET / VMPET / Antistatic PE (Standard thickness: 10 microns)
 SEALED BAG	0 ~ 1000 capsules	Customizable	PET or MOPP / AL / Antistatic PE (thickness: 10 ~ 14 mils, depending on the contents)
 BOTTLE	Custom number 0 ~ 1000 capsules	Machine labeling: Capacity ≥ 300 ml Height ≥ 300 mm Hand-labeled: Custom sizes available	PET / PE

Outer Packaging

HARD CAPSULES

Hard capsules are suitable for a wide range of powdered ingredients without the need for binder ingredients. They offer a flexible form of dosage and are cost effective to produce, with endless color combinations.

Hard Capsules: L-carnitine capsules, CoQ10 capsules, grape seed collagen capsule, maca & horny goat weed capsules, ashwagandha capsules

Production Capacity: 167 million per month

SIZE	NO. 00EL	NO. 00	NO. 0	NO. 1
LENGTH (TOTAL BODY)	25.50 ± 0.5 mm	23.60 ± 0.5 mm	21.20 ± 0.30 mm	19.20 ± 0.30 mm
DIAMETER (TOTAL BODY)	8.58 / 8.25 mm	8.58 / 8.25 mm	7.65 / 7.35 mm	6.95 / 6.66 mm
CAPSULE + DOSAGE TOTAL WEIGHT	0.62 ~ 1.24 g	0.55 ~ 1.10 g	0.41 ~ 0.82 g	0.29 ~ 0.58 g

Note: The table represents average weight; exact measurements will depend on the specific formula and product.

We offer both gelatin and vegetarian hard capsules.

Inner Packaging

INNER PACKAGE	CAPSULE COUNT	SIZE / SPECIFICATIONS	RECOMMENDED MATERIALS
 BLISTER PACKET	10 or 12	Customizable	PVC thermoformed plastic & backing foil (customizable)
 INDIVIDUALLY SEALED BAGS	0 ~ 20 capsules	Minimum: 80 × 100 mm Maximum: 160 × 200 mm	PET / VMPET / Antistatic PE (Standard thickness: 10 microns)
 SEALED BAG	0 ~ 1000 capsules	Customizable	PET or MOPP / AL / Antistatic PE (thickness: 10 ~ 14 mils, depending on the contents)
 BOTTLE	Custom number 0 ~ 1000 capsules	Machine labeling: Capacity ≥ 300 ml Height ≥ 300 mm Hand-labeled: Custom sizes available	PET / PE

Outer Packaging

| TABLETS

Tablets offer the widest and most flexible dosage range, from tiny to large, and are cost effective to produce, with a long shelf life. We offer customizations in shape, color, and dosage amount.

Example Products: Joint health tablets, Vitamin C chewables, multivitamins, compound B tablets, amino acid tablets

Production Capacity: 167 million per month
